Do not look back in anger
Or forward in fear,
But look around in awareness.

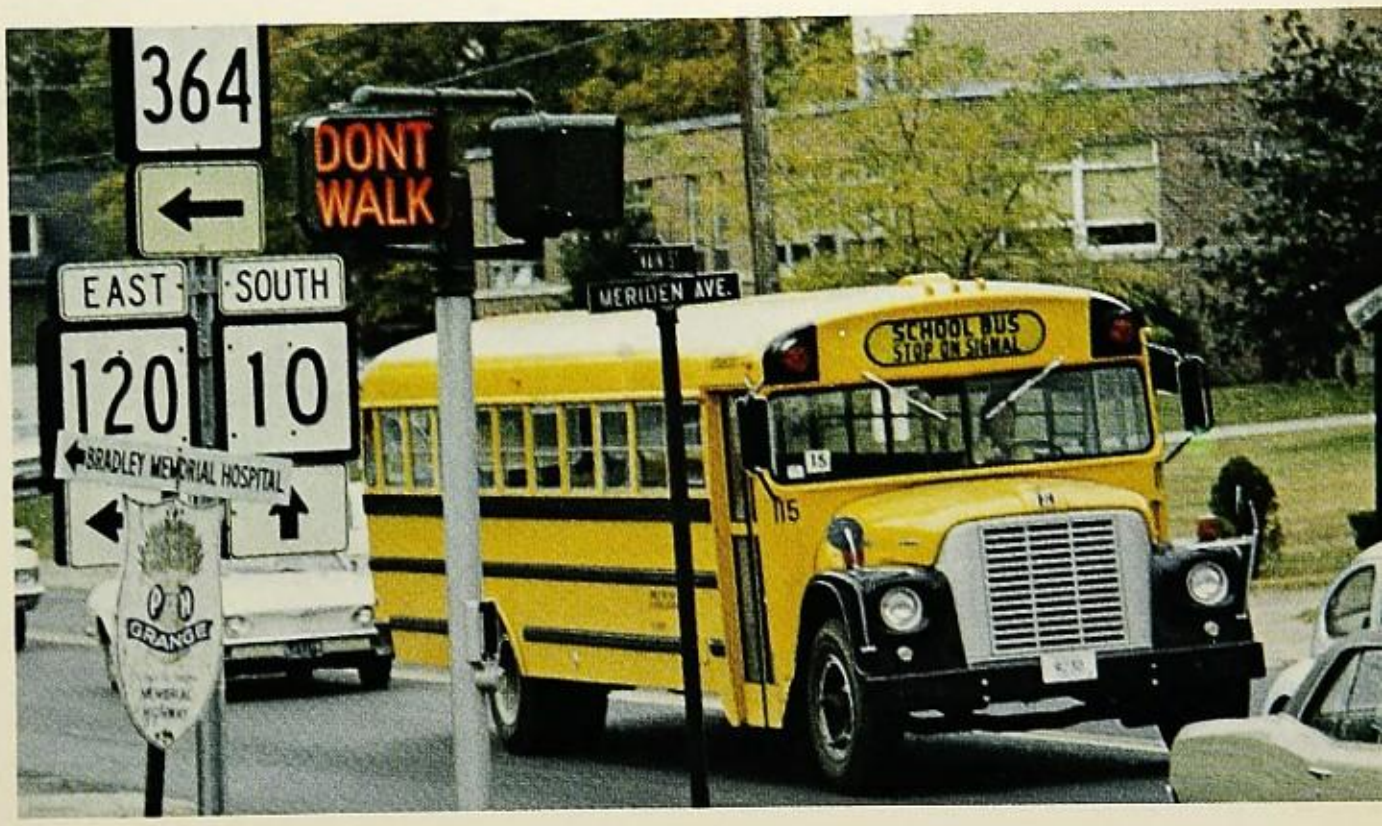
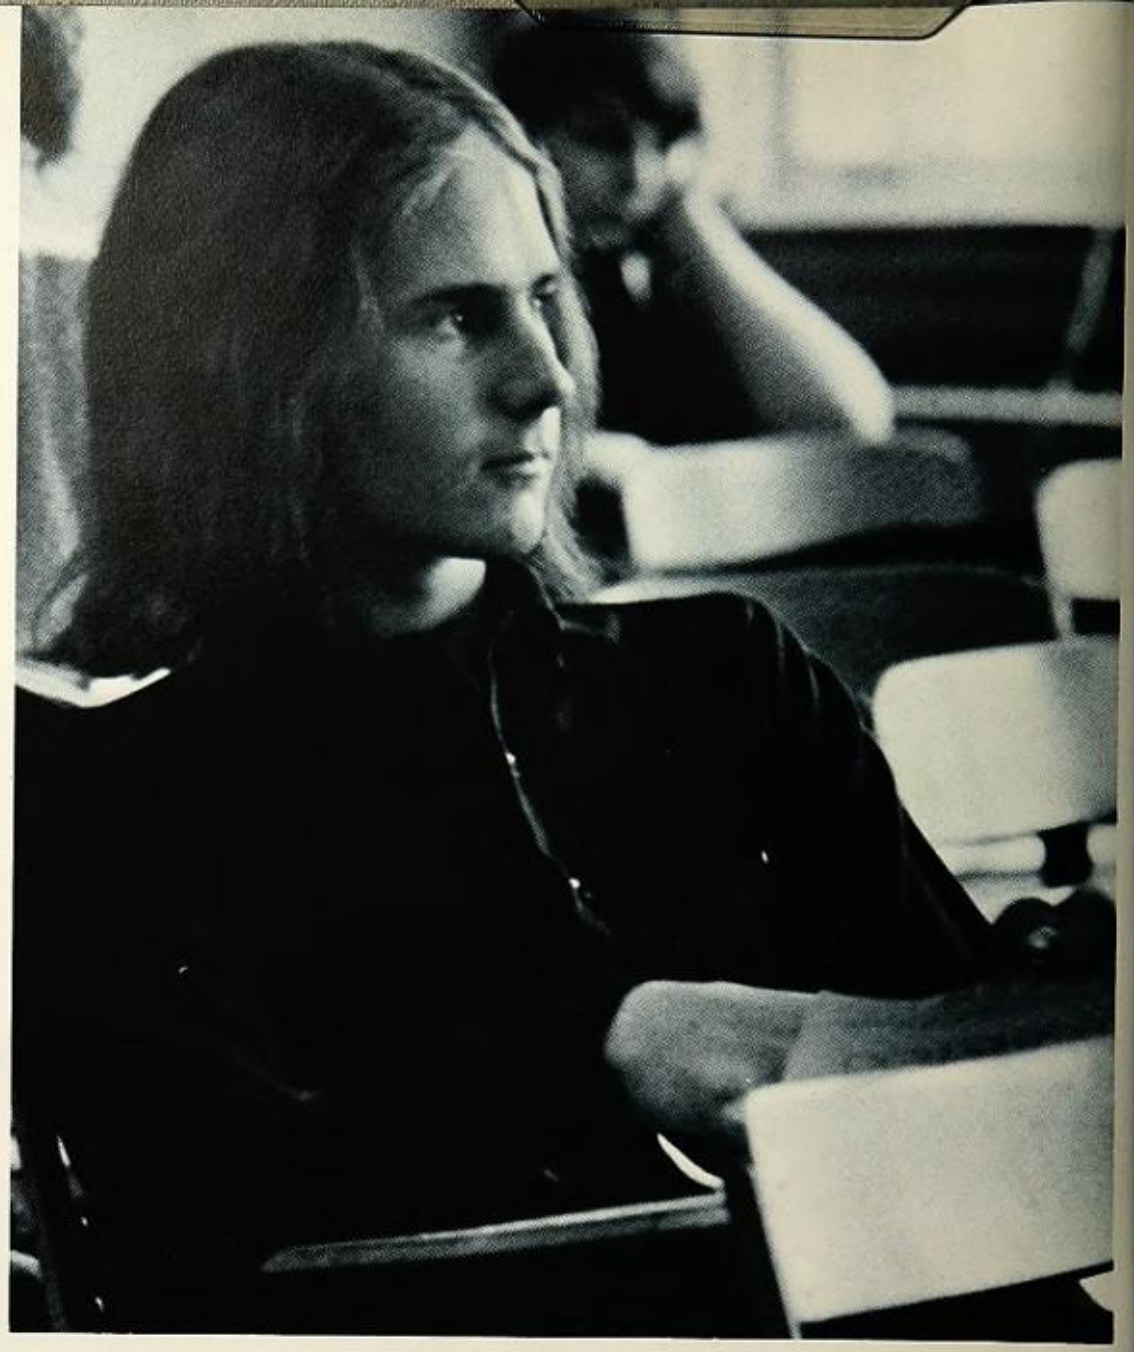
Edited by L. M. SCHULMAN



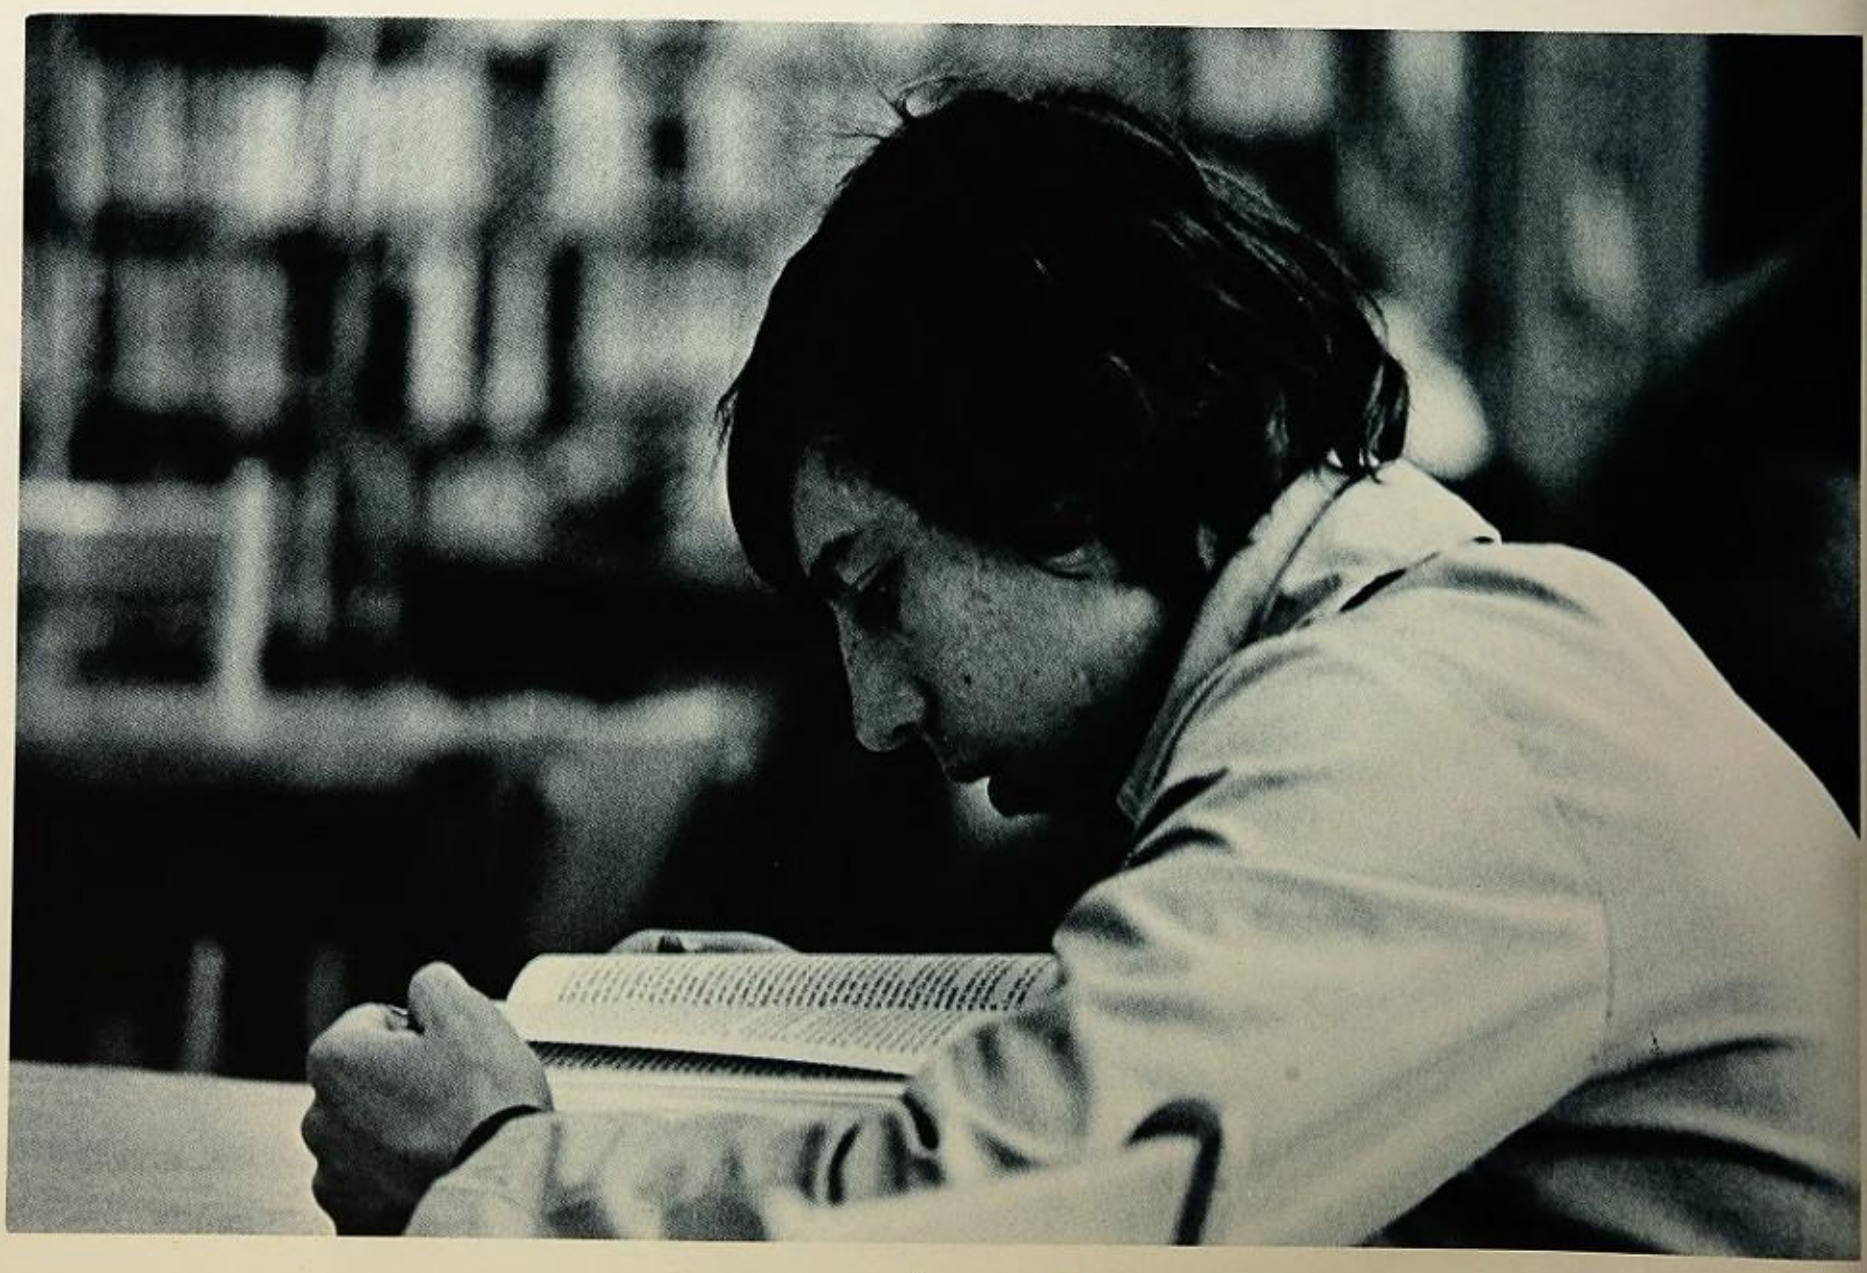
Well in the end I'll know
But on the way I'll wonder
Through descending snow,
And through the frost and thunder
I listen to the wind come howl
Telling me I have to hurry

I listen to the robins' song,
Telling me not to worry,
So on and on I go,
The seconds tick the time out
There's so much left to know,
And I'm on the road to find out.

Cat Stevens

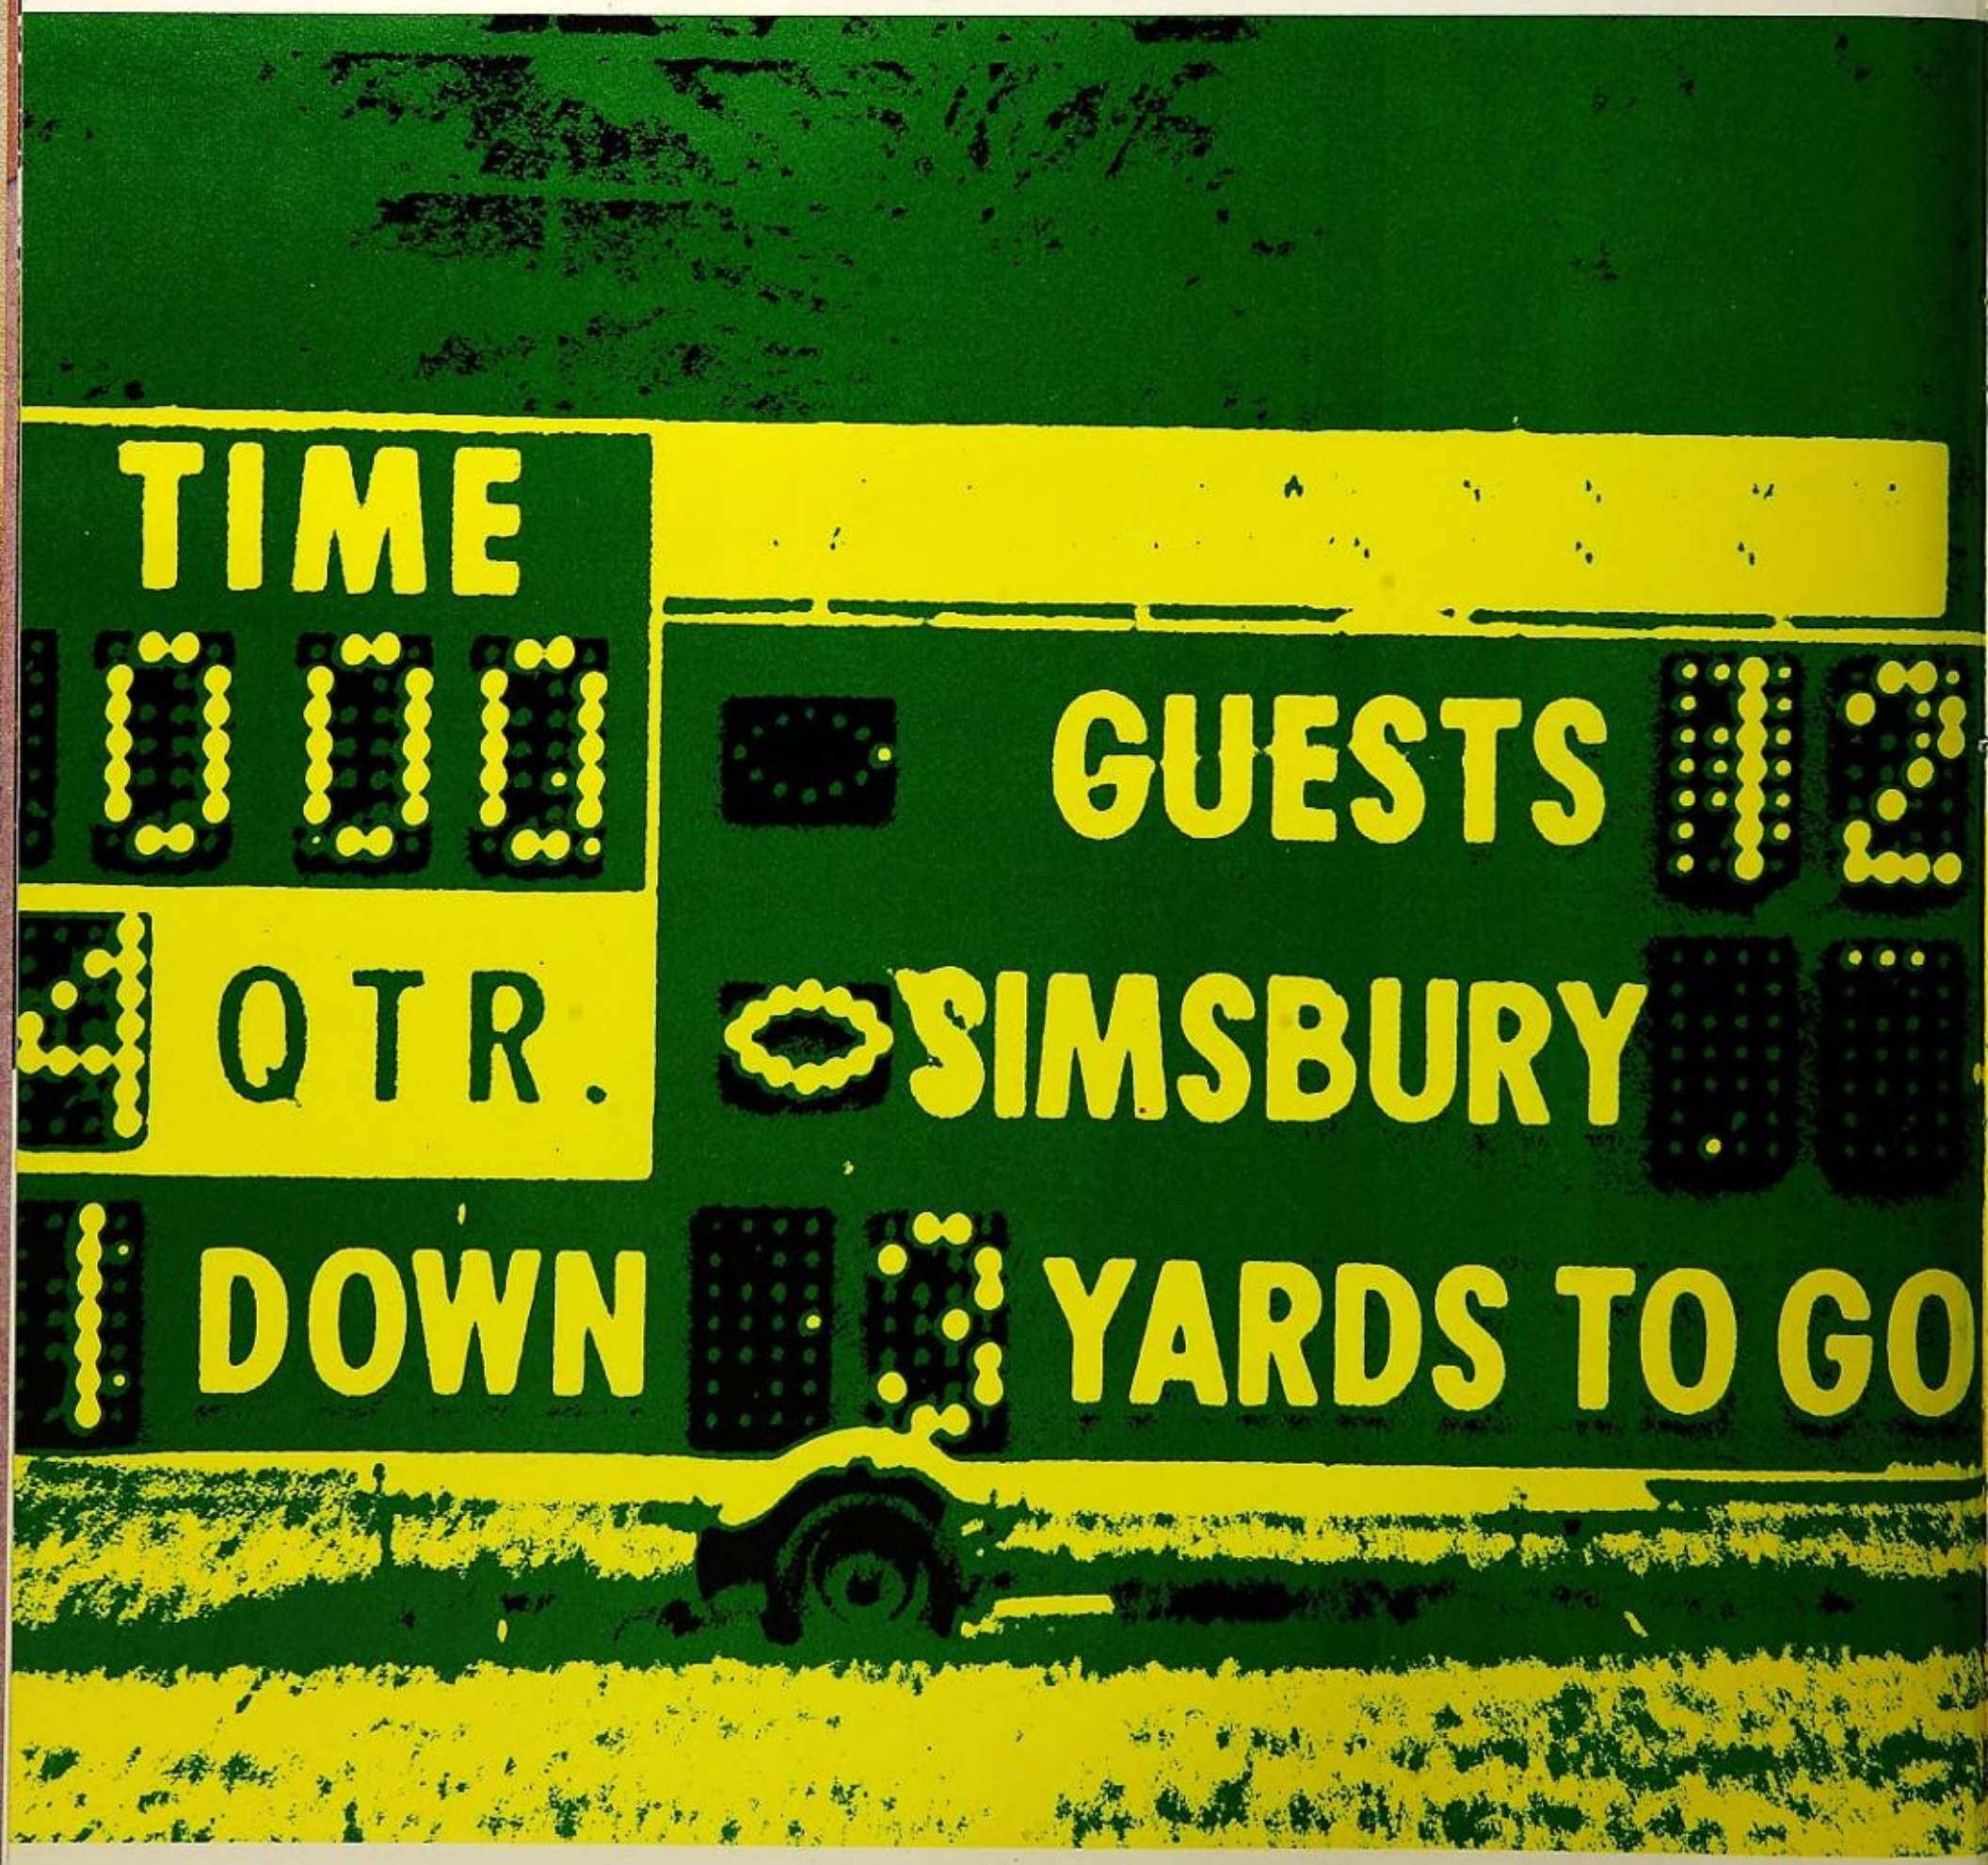


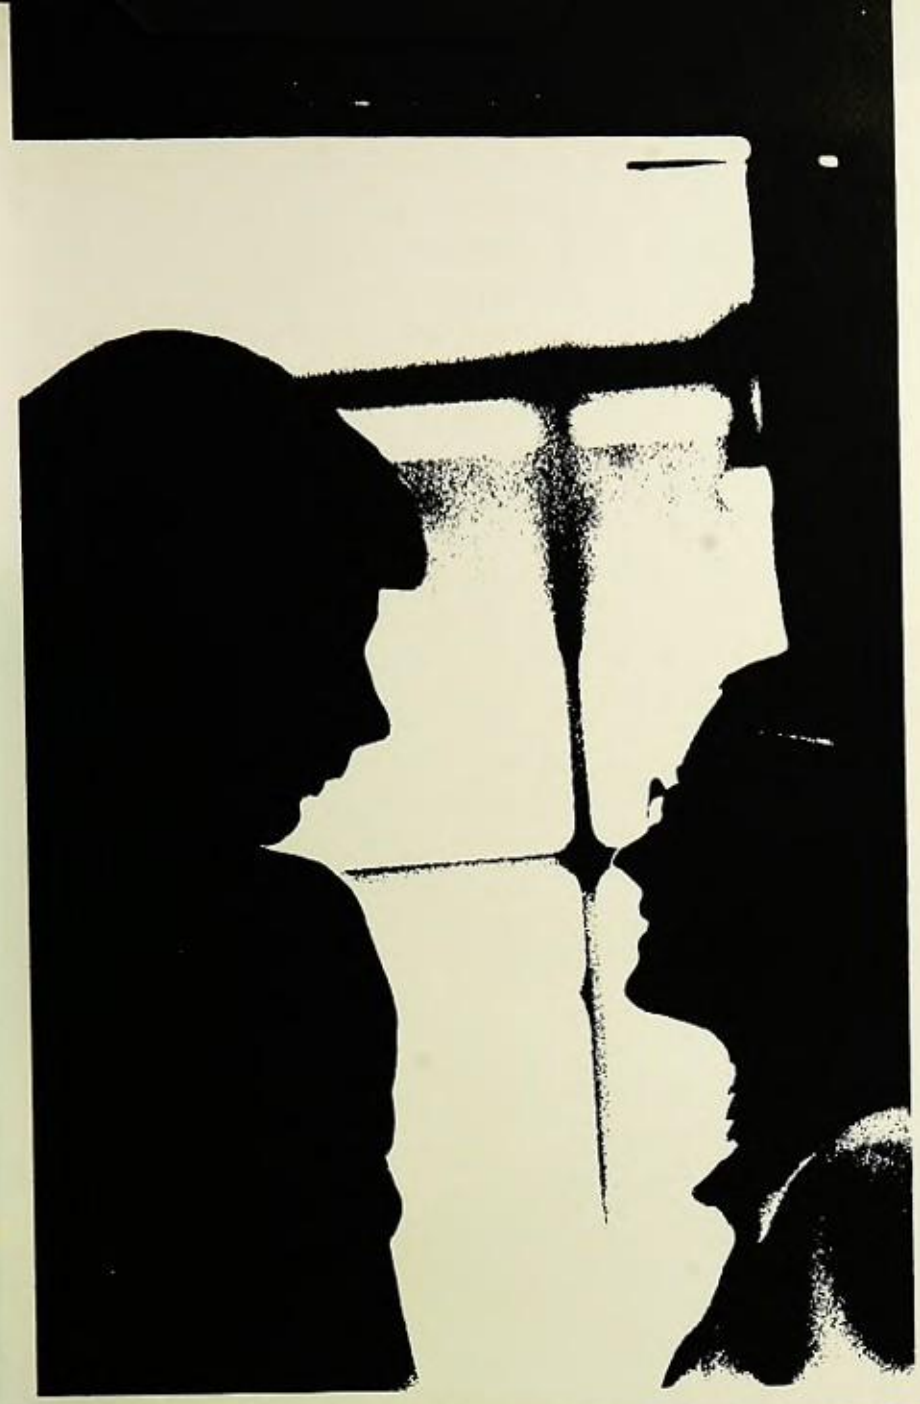
Thought is a vital living force,
the most vital,
subtle and irresistible force
that exists in the universe.

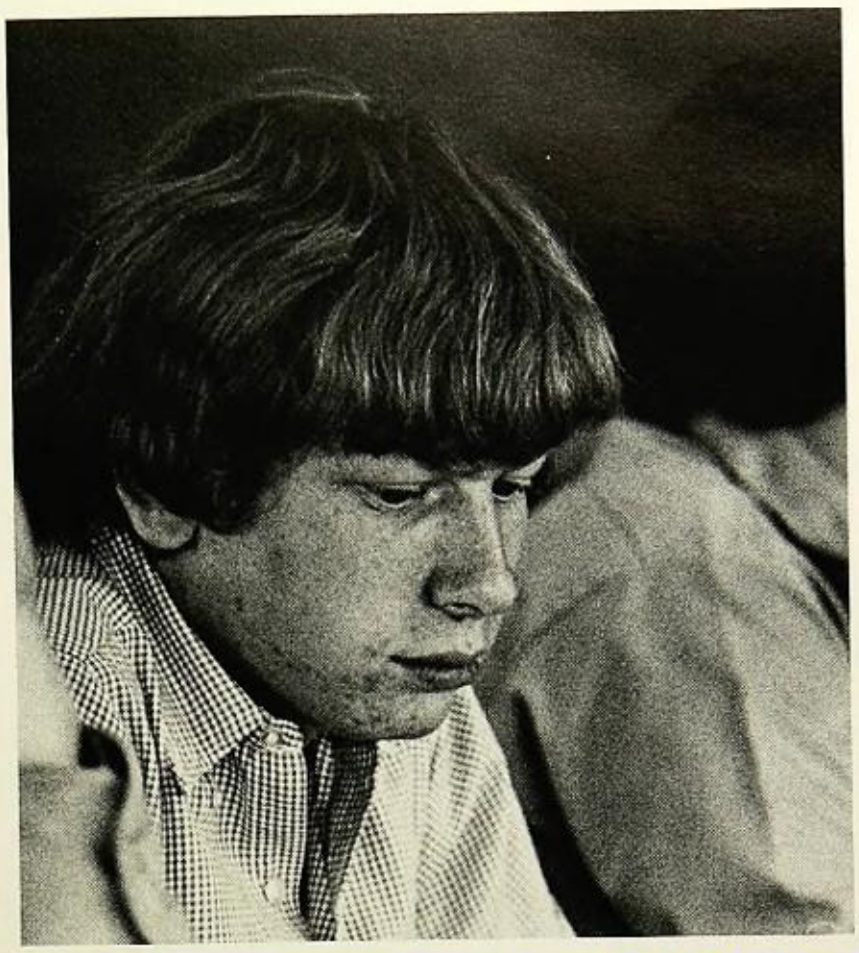


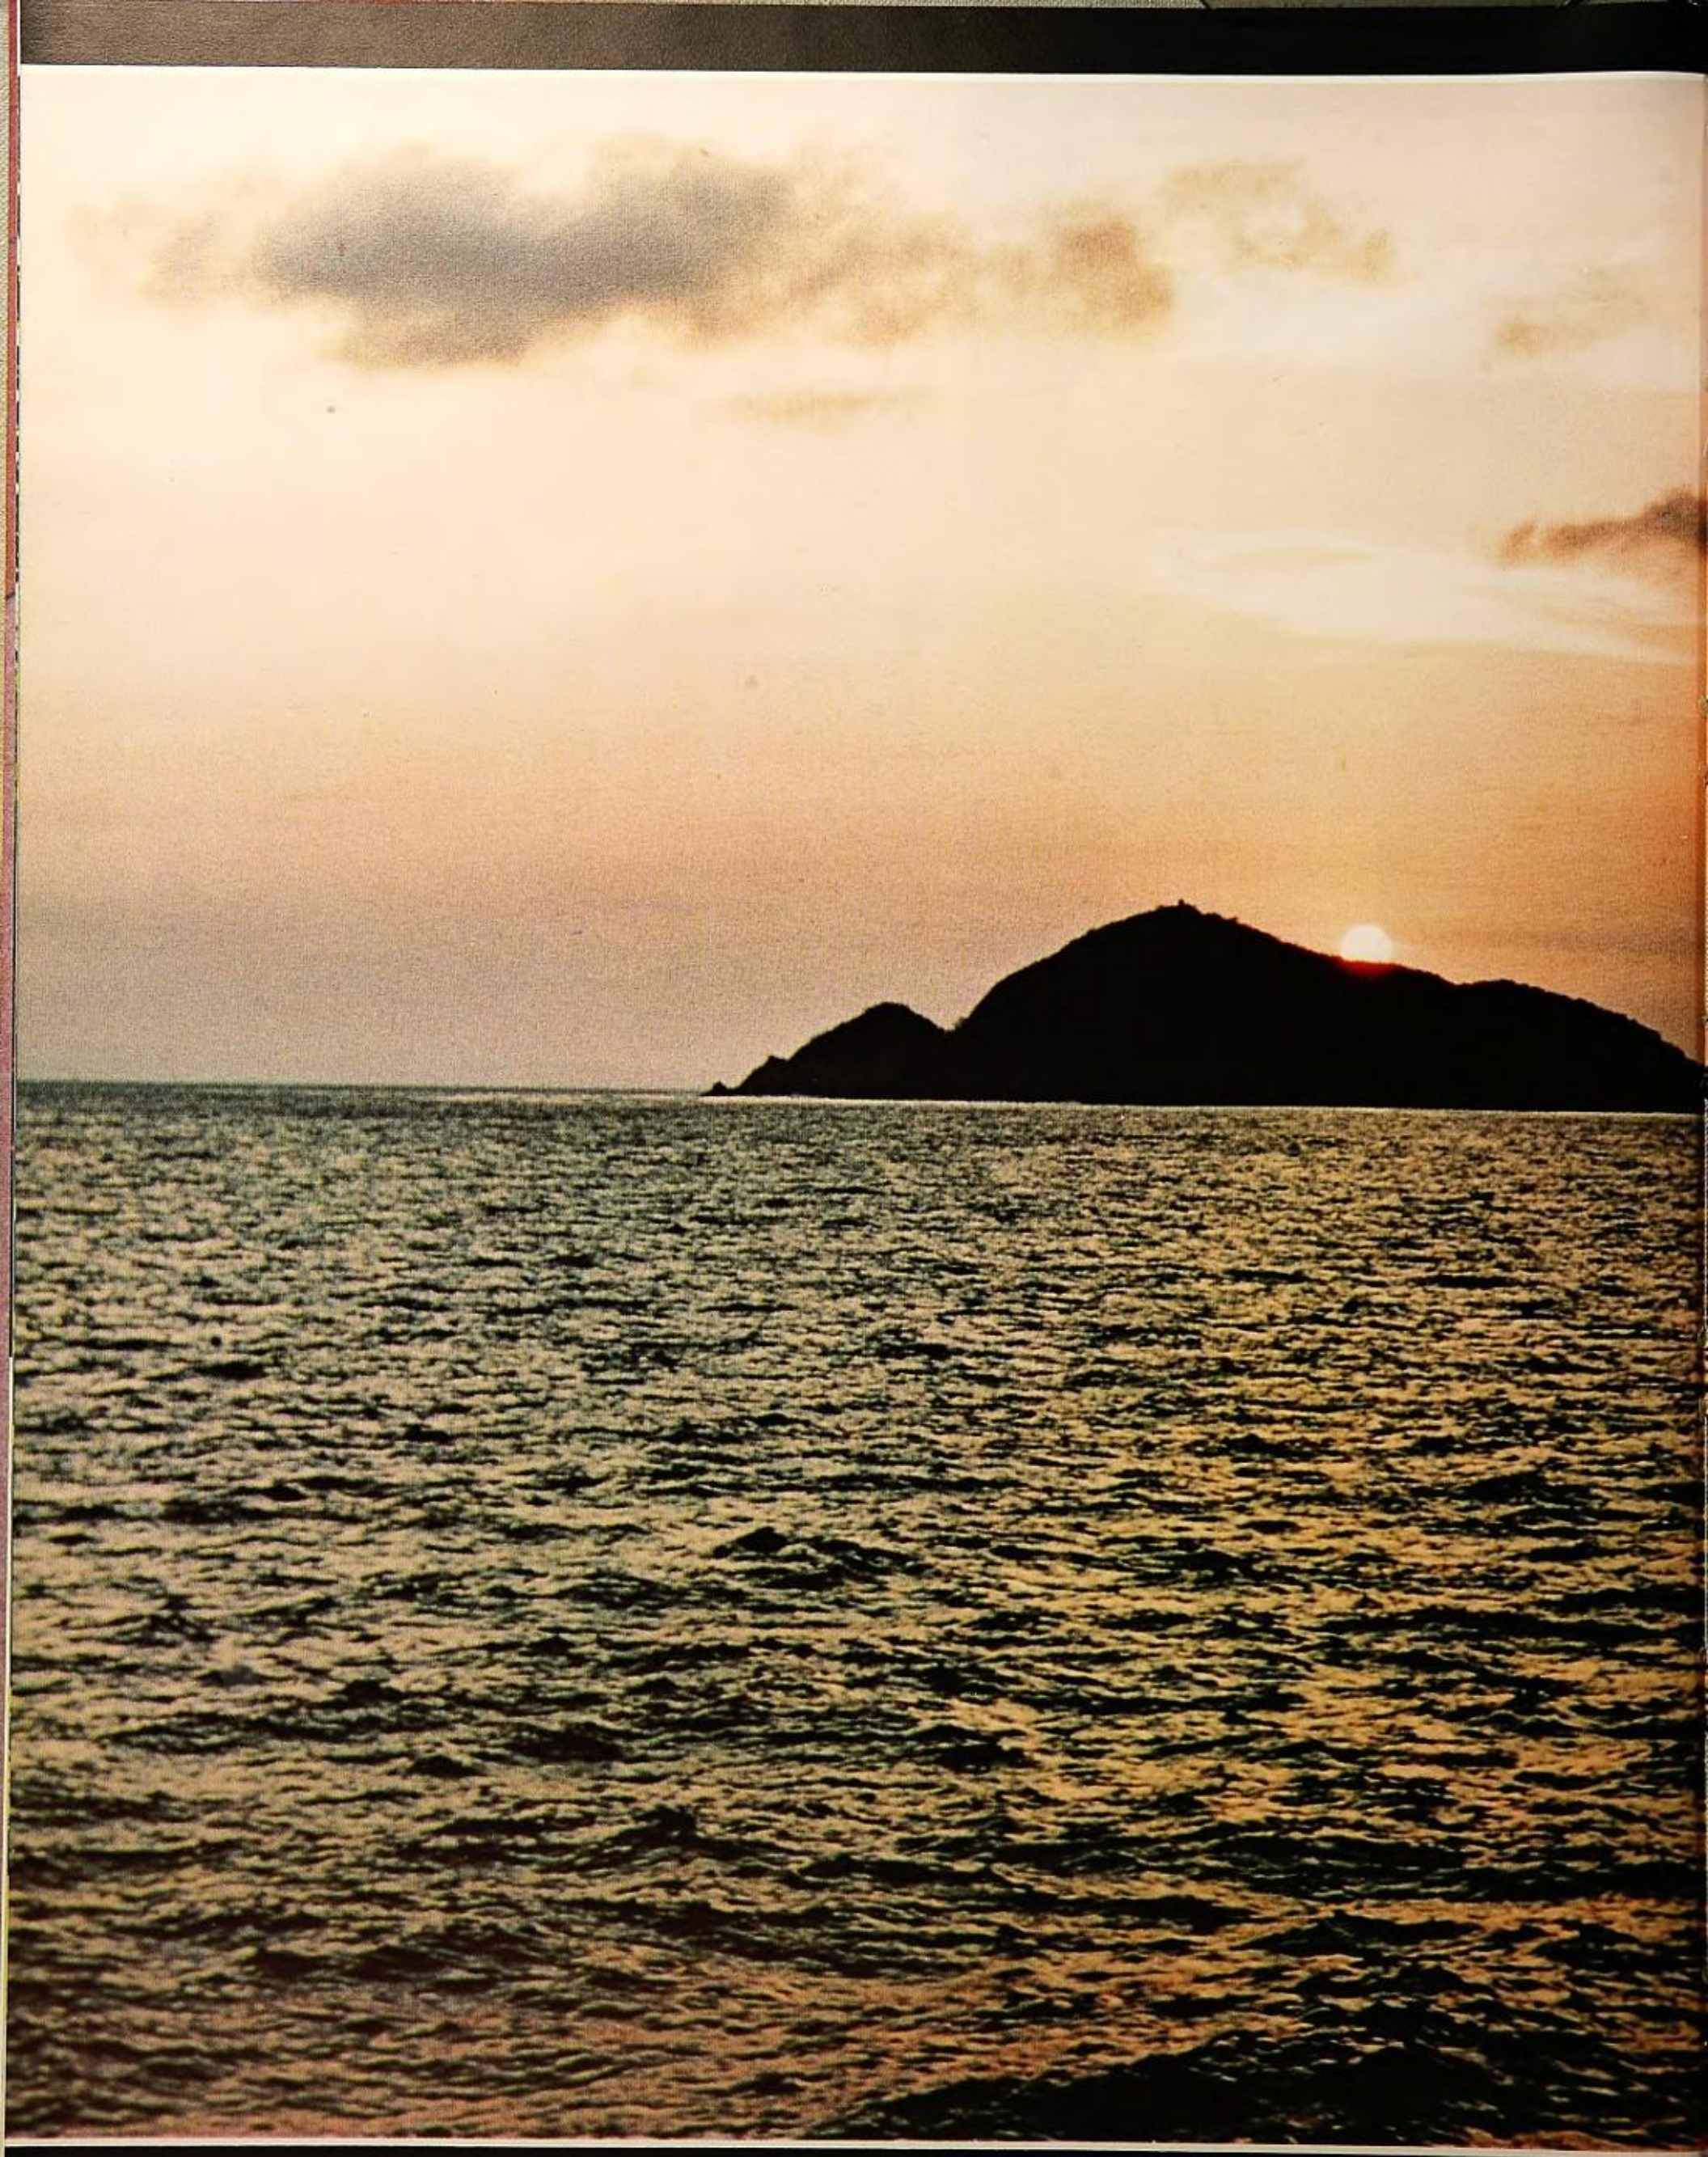
Is it so small a thing
To have enjoyed the sun,
To have lived light in the spring,
To have loved,
To have thought,
To have done?

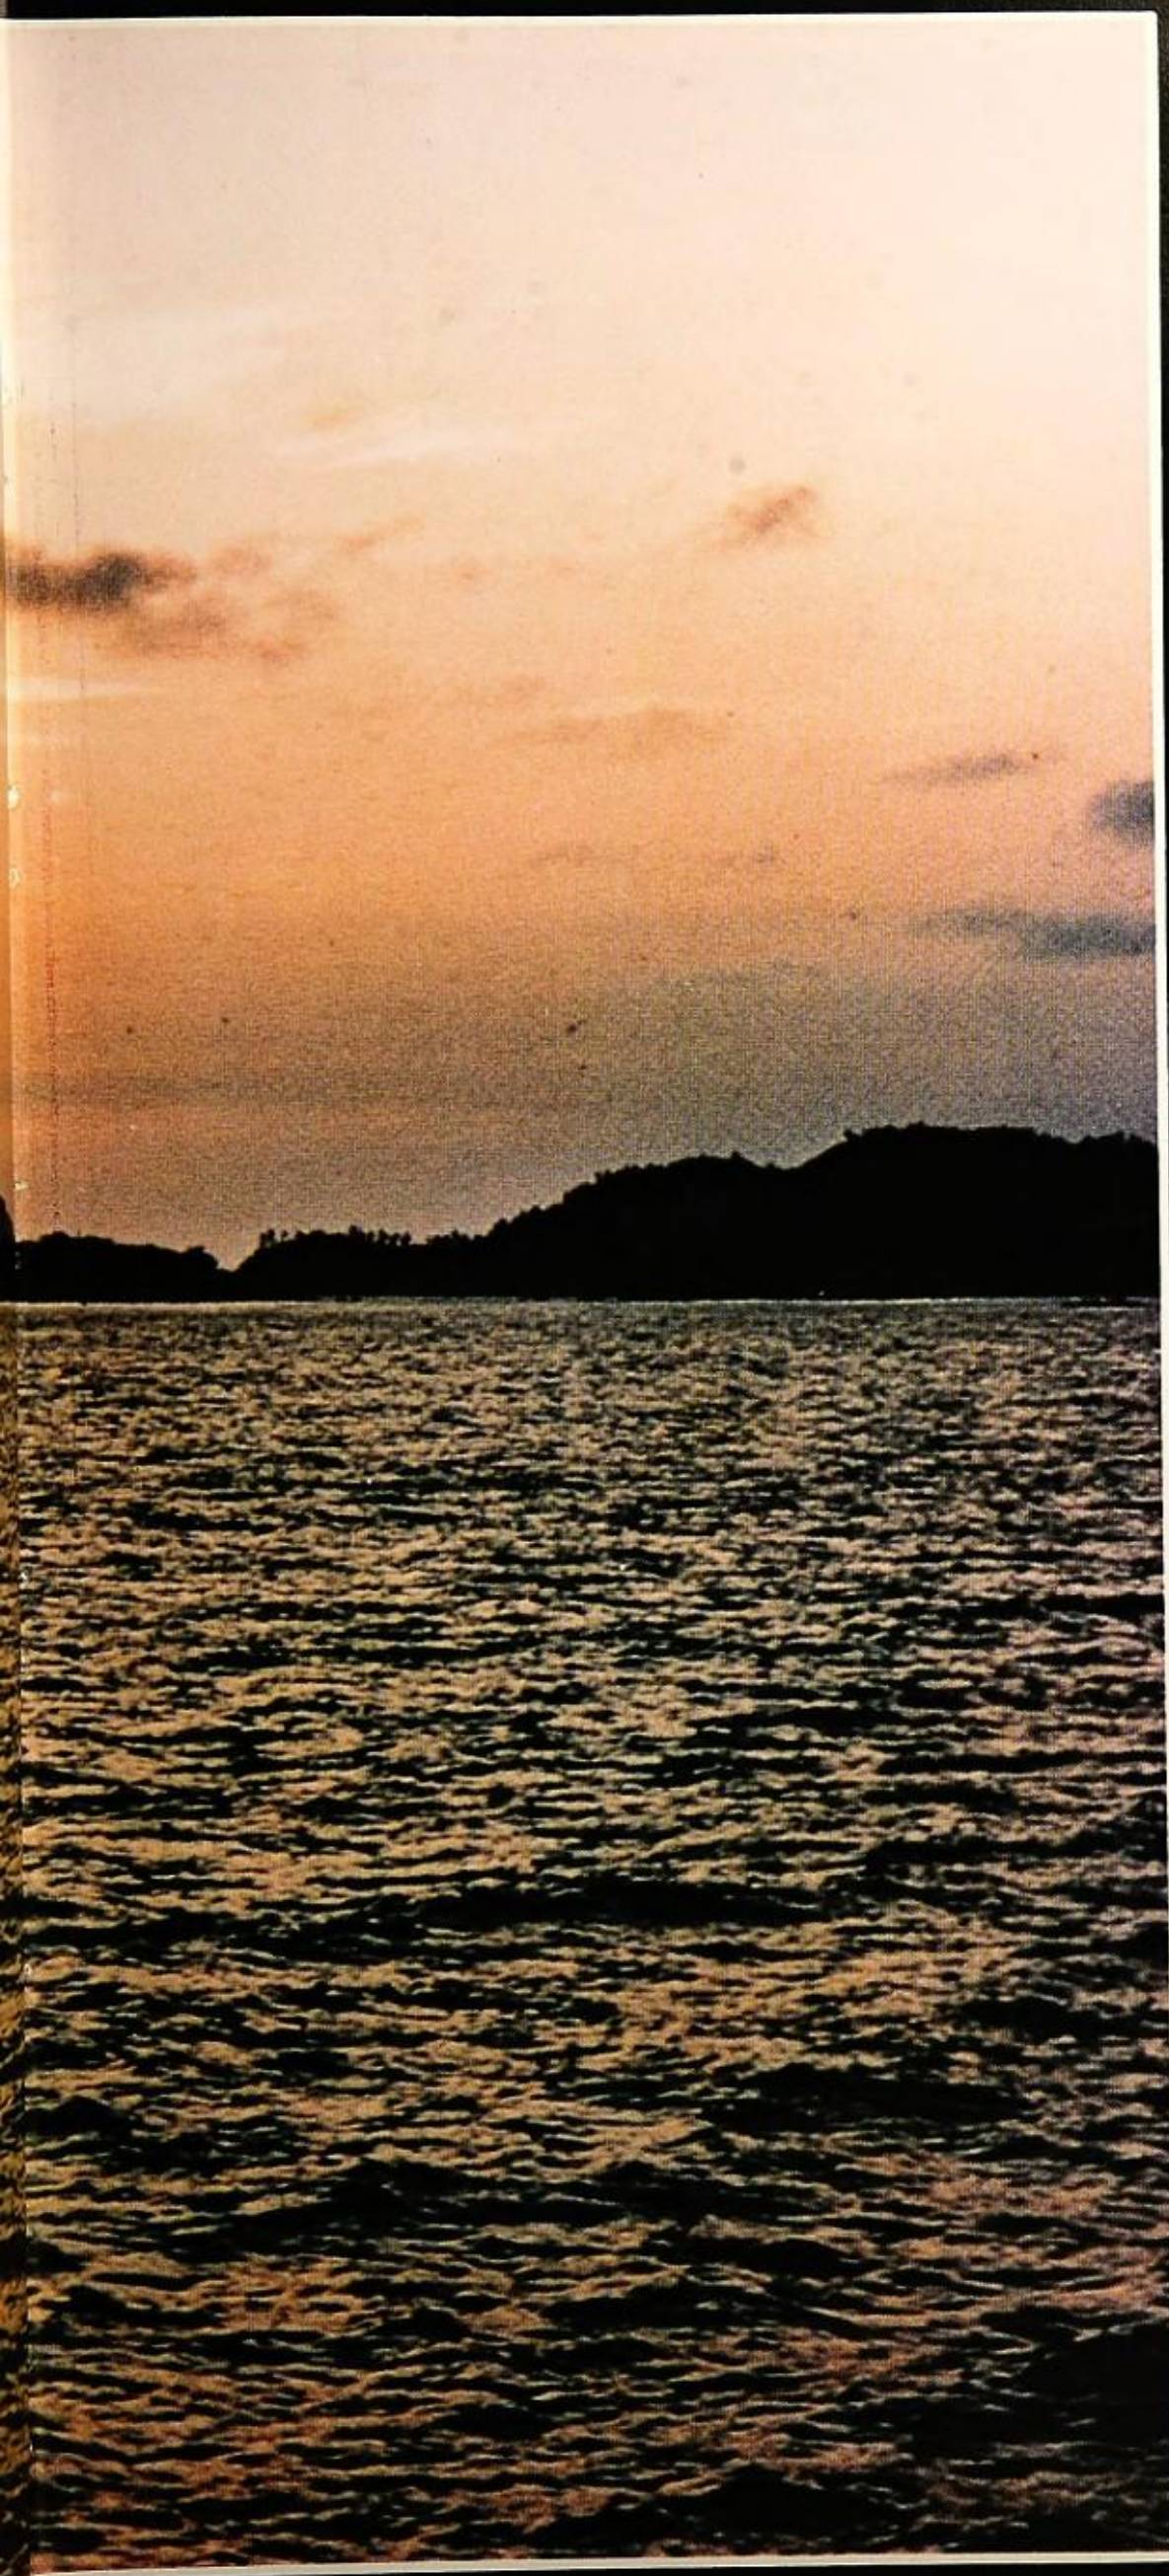
Matthew Arnold





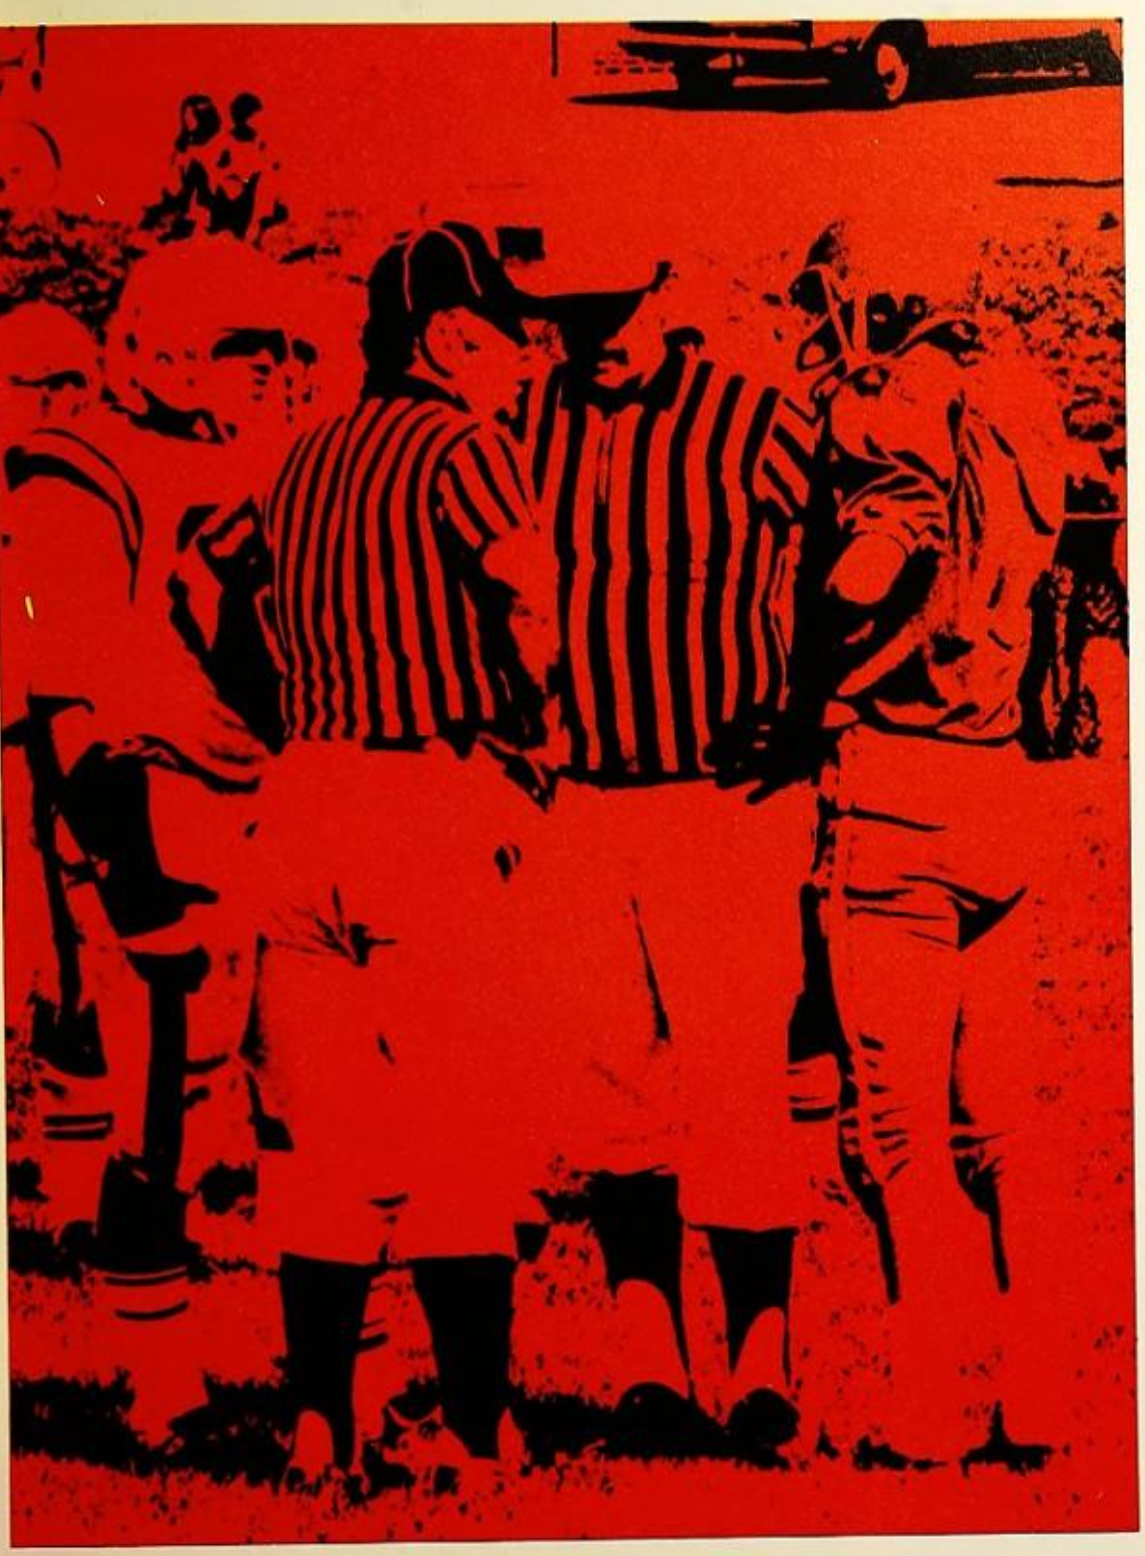






Yet I doubt not thro' the ages one
increasing purpose runs
And the thoughts of men are widened
by the process of the suns.

Tennyson

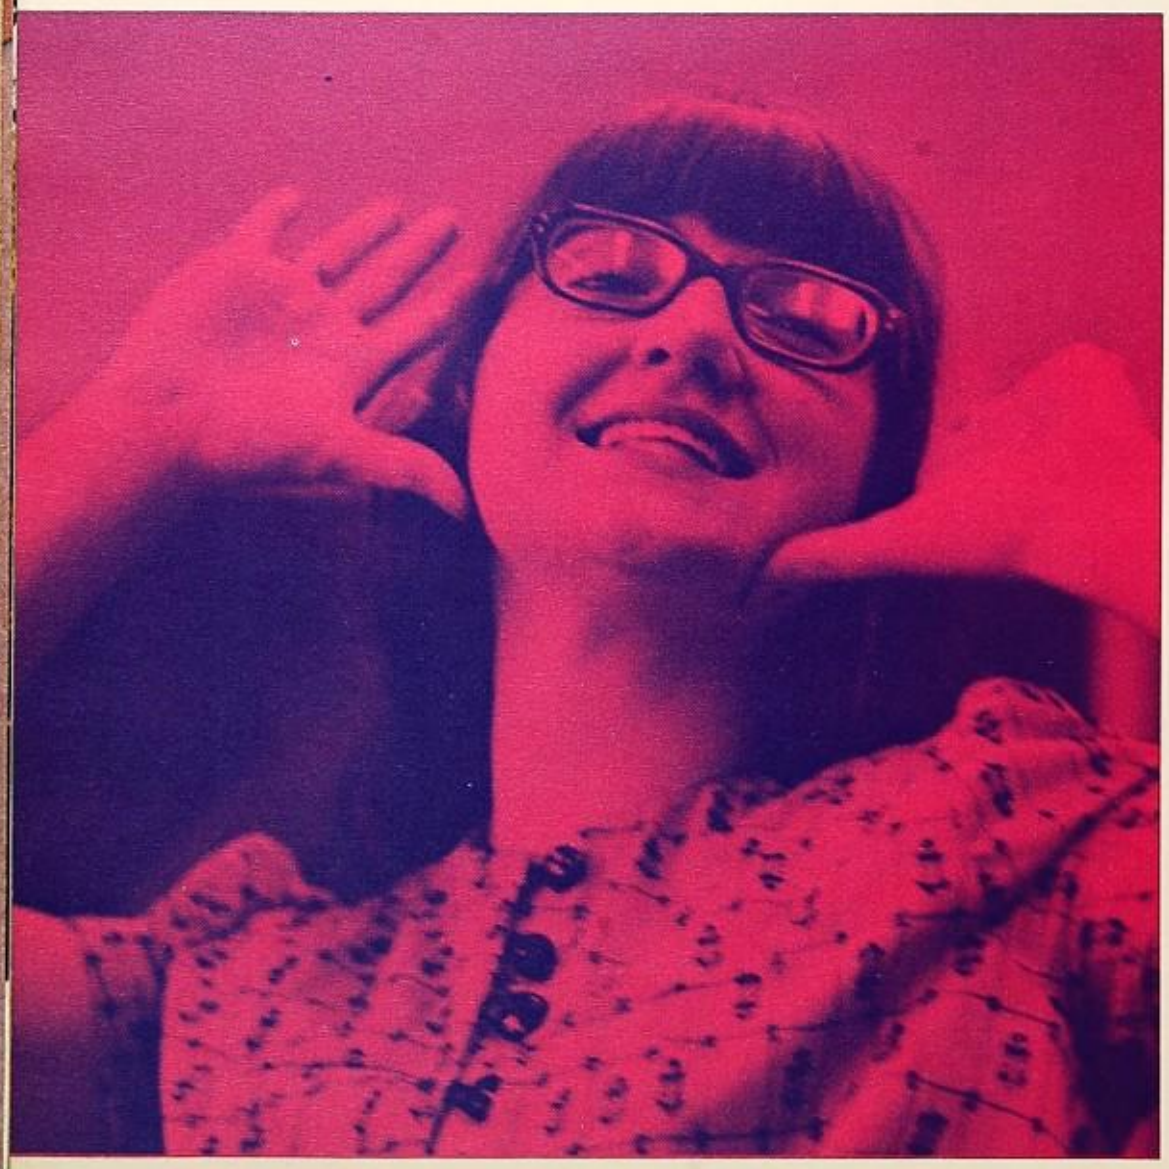


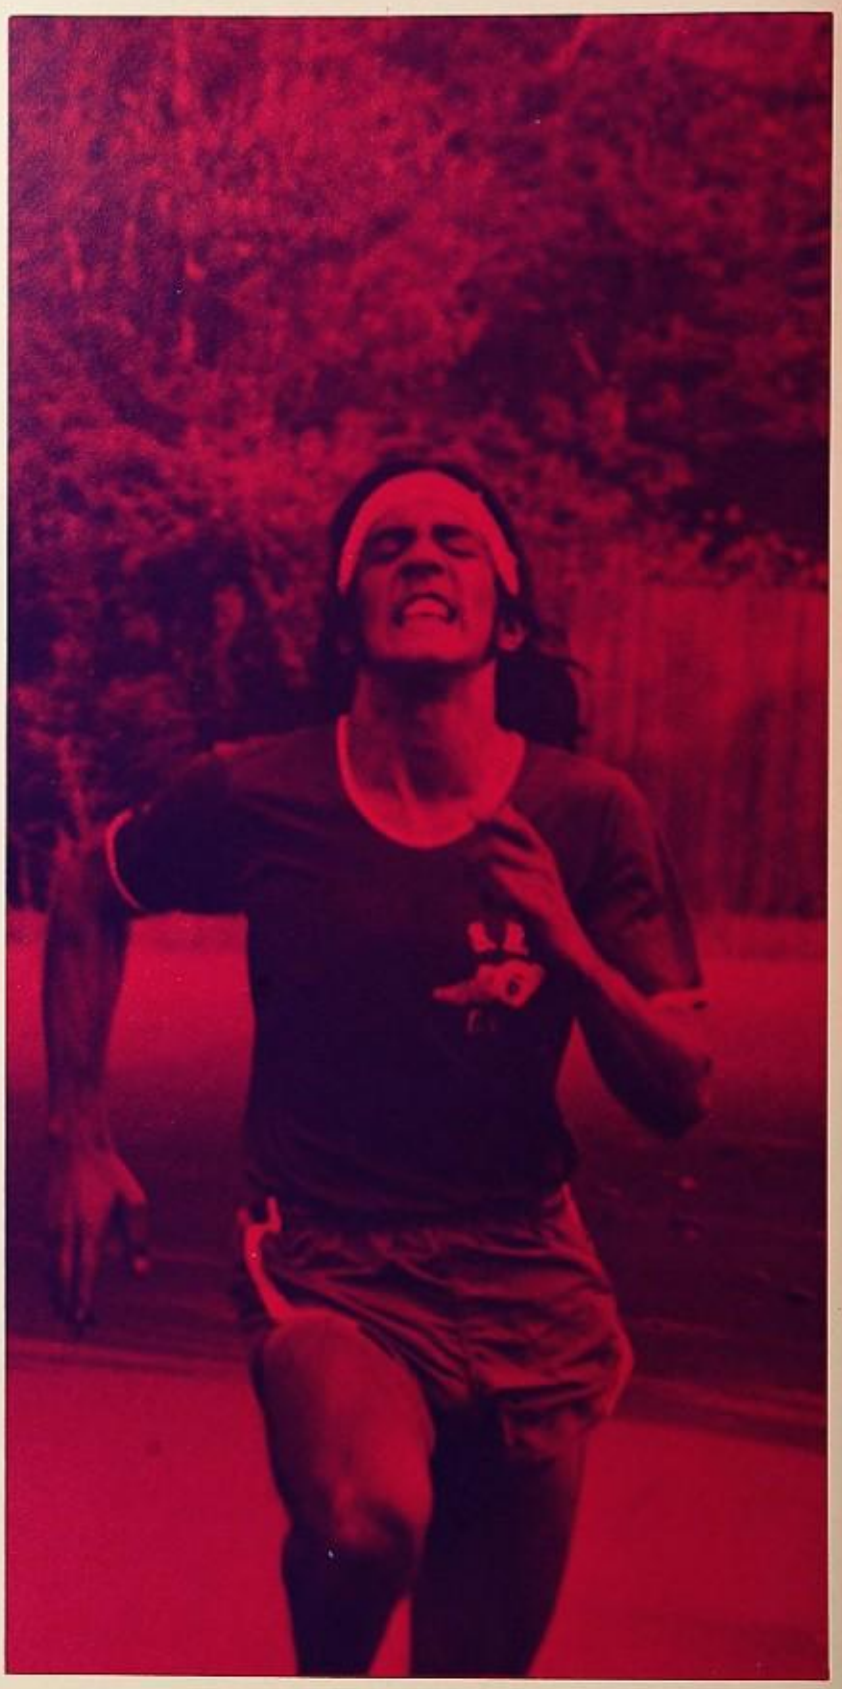
It's a circle

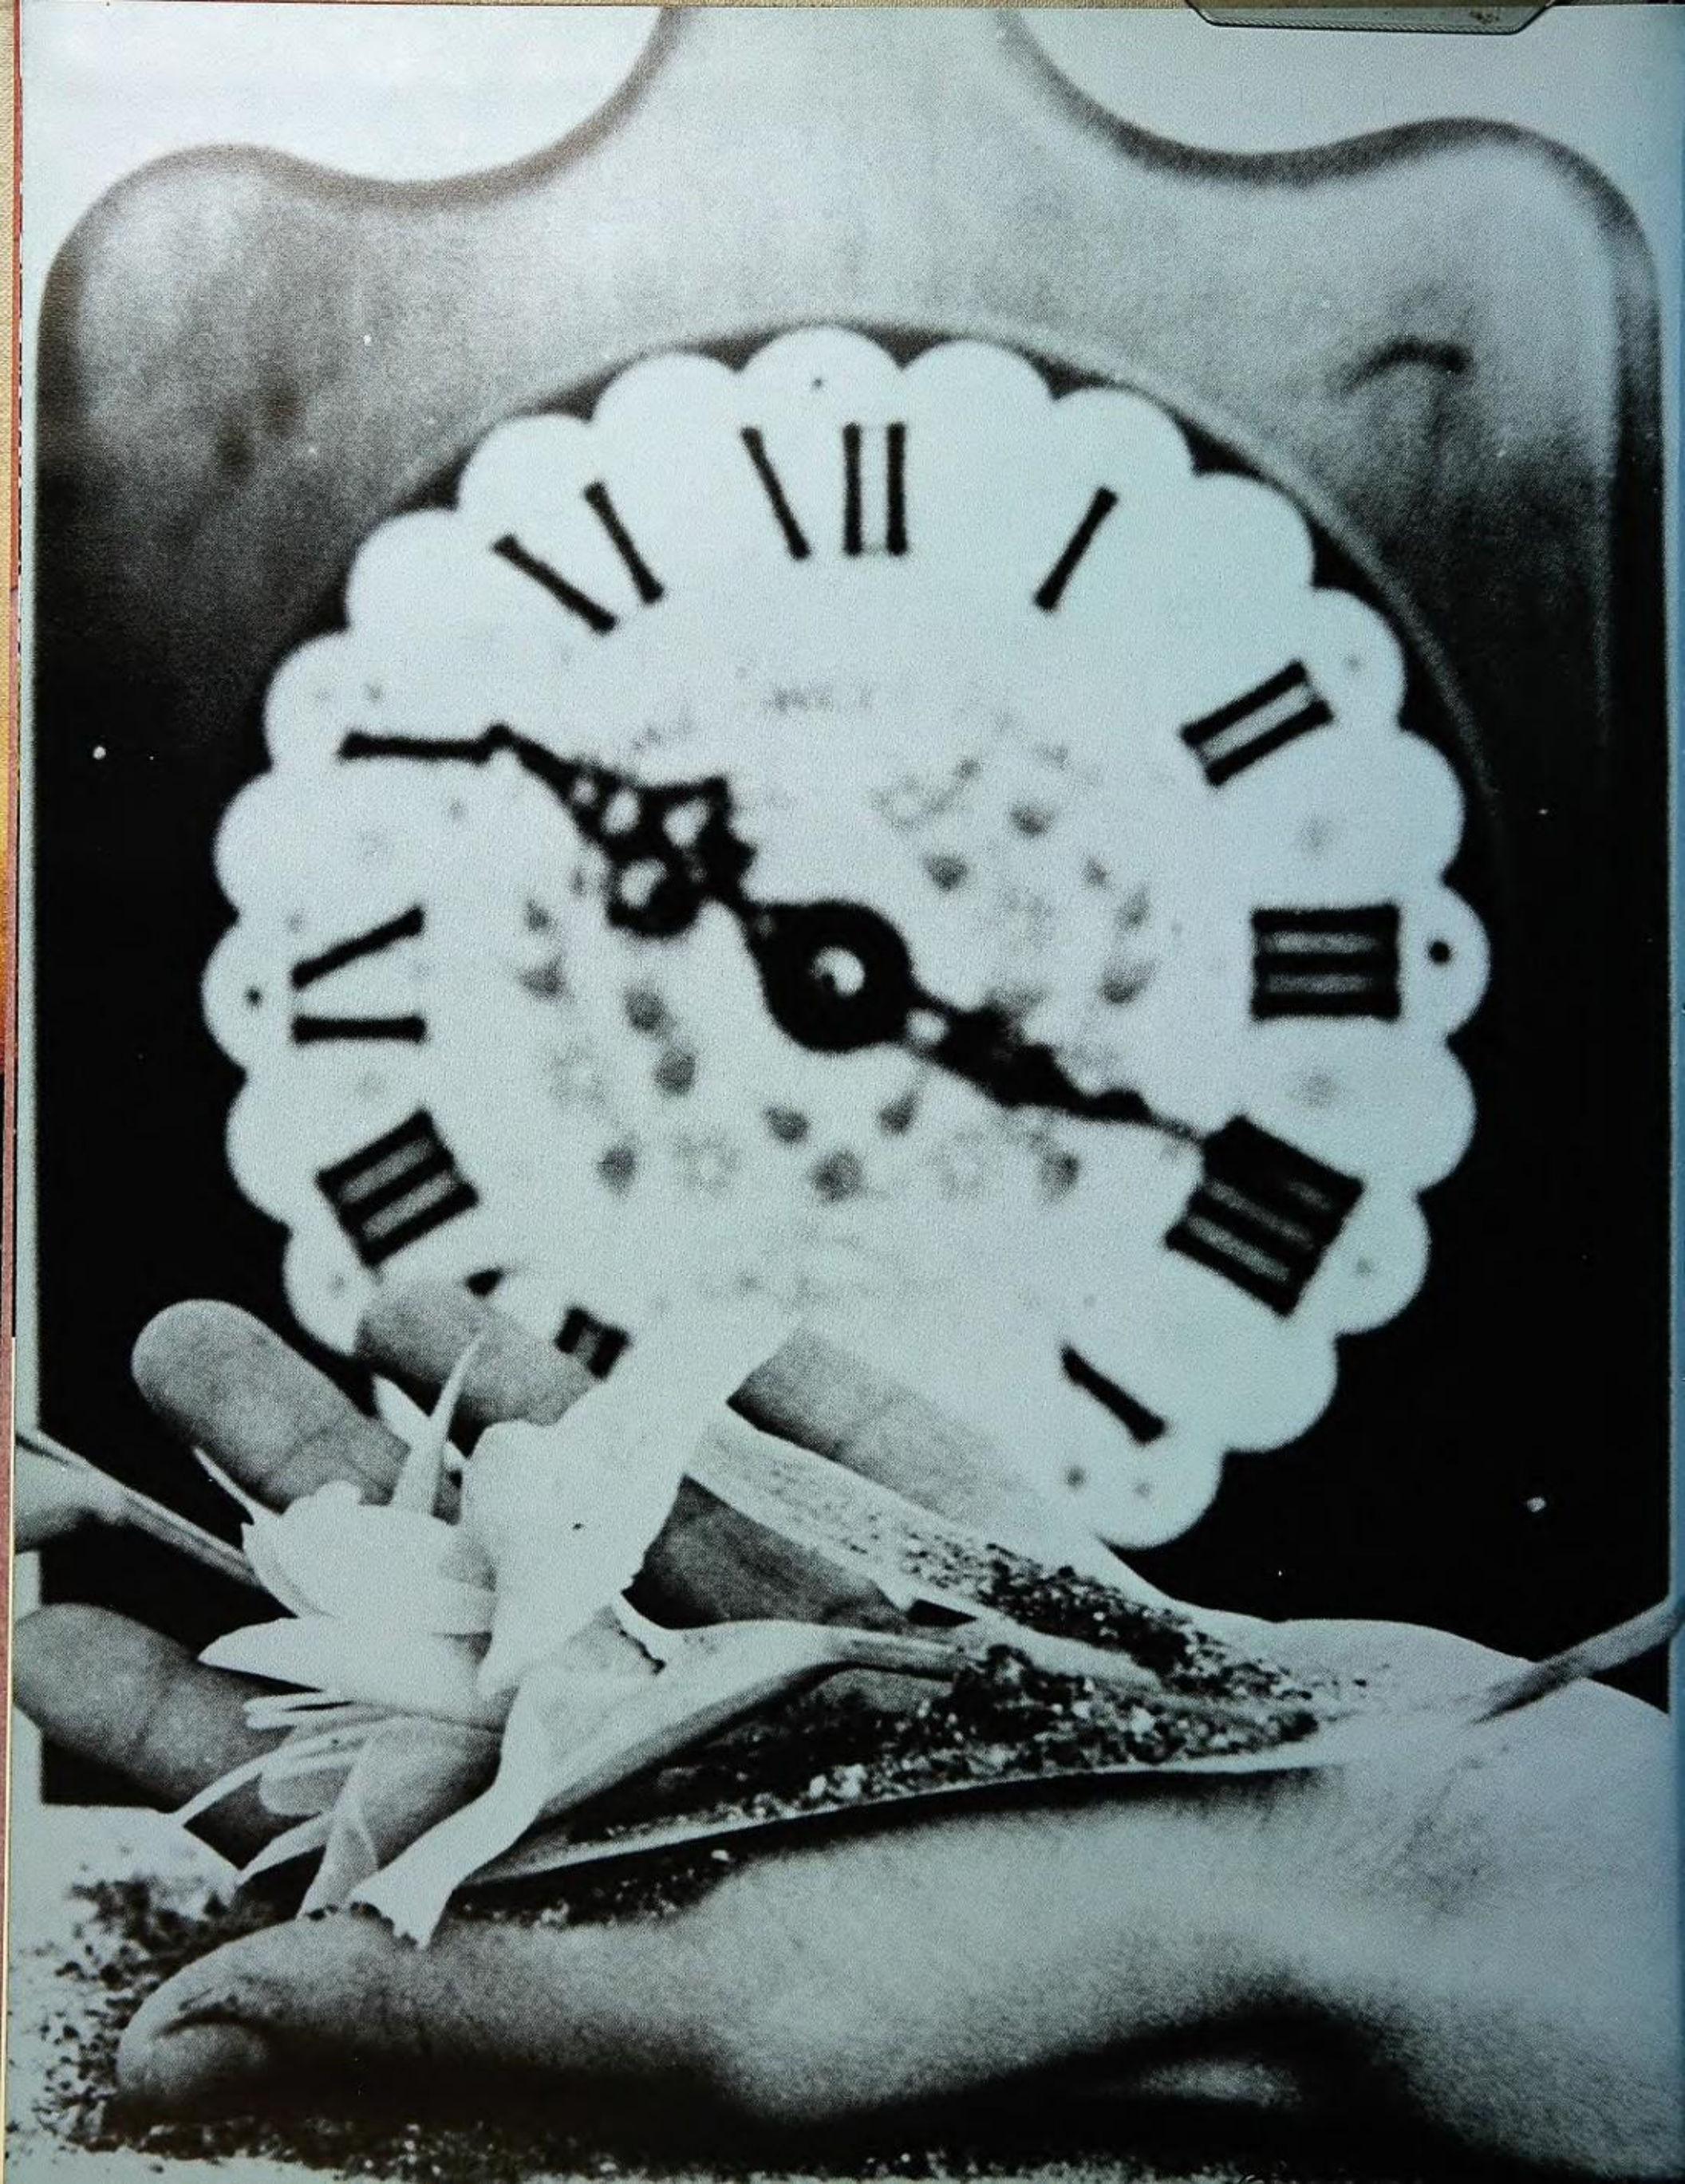
for everyone

to be involved in.

'Tis always morning somewhere.







To see a world in a Grain of Sand,
And Heaven in a Wild Flower,
Hold Infinity in the palm of your hand,
And Eternity in an hour.

We've come a long way since our days as sophomores. We've learned, we've experienced, and we've matured. But most of all, we've developed a certain degree of awareness. An awareness of others in this world rather than ourselves. An awareness that we developed while working together to achieve our final goal in high school . . . graduation.

Now is the time to use the knowledge, that we've learned, and the wisdom, that we've gained from experience, to obtain the new goals of our lives. It's up to you, as an individual, to pursue these goals to the best of your ability. As you pursue these goals and other things in this world, always "be at peace with God whatever you conceive him to be, and whatever your labors and aspirations in the noisy confusion of life, keep peace with your soul." For remember, "with all its shame, drudgery, and broken dreams, it is still a beautiful world. Be careful. Strive to be happy."

There is a season for everything, a time for every occupation under heaven:

A time for giving birth, a time for dying;

a time for planting, a time for uprooting what has been planted.

A time for killing, a time for healing;

a time for knocking down, a time for building.

A time for tears, a time for laughter;

a time for mourning, a time for dancing.

A time for throwing stones away, a time for gathering them up;

a time for embracing, a time to refrain from embracing.

A time for searching, a time for losing;

a time for keeping, a time for throwing away.

A time for tearing, a time for sewing;

a time for keeping silent, a time for speaking.

A time for loving, a time for hating;

a time for war, a time for peace.

WHAT CAN WE DO FOR YOU?

Some people think a savings bank is a place for widows, orphans or perhaps folks with a lot of money. If you have that idea we'd like to show you some ways we can be useful and helpful to young people just like yourself.

For starters, we'd like you to have a copy of our portfolio on money management. It's full of practical ideas and suggestions on making your money go further. We'd also like you to have your own Perpetual Money Wheel which will actually show you dozens of ways you can use a savings account to help accomplish your own purposes.

Both are yours for the asking — just stop in at any one of our three convenient offices.

We, The 1973 Chronicle Editors, would like to extend gratitude to our staff and the class of 1973. We have appreciated their understanding and hard work.

Our Special Thanks to Mr. Dom Giallello and Mr. Joseph Piazza. We have enjoyed working on the book and with the class.

God has given me this day to do as I will
I can waste it or use it for good.
What I do today is very important.
Because I am trading a day in my life for it.
When tomorrow comes, this day will be gone for ever.
Leaving behind something I traded for it.
I want it to be gain not loss,
good, not evil, success, not failure.
In order that I should never forget the price I paid for it.
